Add difference between N. Y. and Boston... $\frac{9}{0}$ 8 Equal to a passage from New-York in 10 The difference between Halifax and New-York and Boston has been ascertsined by repeated running to be 18 hours-48 hours being a quick passage to New-York, and 34 hours to Boston.

We find in the Liverpool Albion the following account of the late splendid passage of the Atlantic. with some comparisons of the time made by the

Buropa and Asia:

The United States mail steamship Atlantic, Captain West, arrived in the Mersey from New-Yors, after a very remarkable run in point of rapidity, at 1 o'clock on the morning of Wednesday last. She left New-York at noon on the 27th ult, made Holyhead at 7 o'clock on the evening of Tuesday, 10 days 2 hours and 20 minutes after leaving New-York, and arrived off the Prince's parade shortly after 1 o'clock on the ensuing morning. Her entire Europa and Asia: York, and arrived off the Prince's parade shortly after I o'clock on the ensuing morning. Her entire run to the Rock Lighthouse, therefore, occupied precisely 10 days, 8 hours and 20 minutes, being 11 hours and 42 minutes quicker than her last remarkable outward passage. From a comparison of her performance with that recently achieved by the Europa it appeas that the Europa still maintains a superiority over her fine rival having in Jane 1 having the court to Halifax, in 10 days 9 hours and 26 minutes precisely; having left New York at 2 P.M. on the 5th, remained at Halifax to receive the mails 1 hour and 54 minutes, waited off the bar of the Mersey for want of water during two hours, and arrivhour and 54 minutes, waited off the bar of the Mer-sey for want of water during two hours, and arriv-ed in the river at 8 o'clock on the morning of Sun-day, June 15. Her run, therefore, actual steaming time, notwithstanding the detour to Halifax, occu-pied merely 1 hour and 6 minutes more than that of the Allsnic; and, if only 5 hours be allowed for that detour, the Europa beat the Atlantic fully 3 bours and 54 minutes. bours and 54 minutes.

The following is a comparison of the last five microst passage of the Cunard and Collins steam ers, according to the above statements:

Thus, according to the English accounts the great eat gain over the Collins line amounts to but six hours and twenty miantes. If the latter line begins by beating every boat of the Cunard line, except the Asia and Europa, built after an experience of ten years in Ocean steam navigation, we may reason ably hope that by the time it is complete its success will be established beyond doubt or overthrow. We translate the following paragraphs in relation to this subject from La Presse of the 9th of August:

subject from La Presse of the state August.

Showever great and legitimate may be the repartation of Cunard, however magnificent the exploits which he has accomplished within ten years, by a rapidity and regularity which havenever been denied, it is evident that the Americans are about to take away from the English the only superiority which the latter have retained. We may judge of this, from the tour de furce already accomplished by

this, from the tour de force already accompitated by Collins, who, with the packets only, carries on a regular correspondence, every three weeks, between Europe and America.

'The English, we may well believe, will not fold their arms in view of these achievements. Since the commencement of Spring, Collins has added a steamer to his line, and all five, except perhaps the Cambria, now make their trips with a rapidity regarded not long since as impossible. The averages, two years ago, was fourteen days; it is now but twelve, and passages of eleves days have become so frequent and so regular, that there is surprise felt both at New-York and Liverpool when they are delayed beyond that time. Collins affirm even that, before losg, I will traverse the Atlankie in nine days. If he does this the English line is beaten, especially, if, as the American journals beaten, especially, if, as the American journals assert, the Colling towards have the advantage of space, elegance and comfort. In any case, there is an interesting struggle going on, and it is mortifying to ray that we do not seem even to suspect it."

GEN. PAEZ AT HOBOREN.-Gen. Paez, in compa. my with his suite, made the expected visit to Ho boken on Thursday, in company with a number of Venezuelan citizens. On landing, he was received by Brigadier Gen. Wright, and the Independent Rifles, Capt. Ryley, of Jersey City. Dingle's Brass Band was also present, and contributed greatly to the spirit of the occasion. On arriving at the Atlantic Hotel, Gen. Wright delivered an appropriate address of welcome, which was briefly but elequently responded to by Gen. Paez. After partaking of some refreshments, a procession was formed, which proceeded to the residence of Capt P. F. Franceschi, a former officer of Napoleon, who served as Captain of the Navy in the wars of Venezuela. In the afternoon a splendid dinner was served up in the grove, about two hundred persons partaking of the hospitality of Capt. Fran ceschi. A fat call had been roasted whole, and two barrels of claret tapped, but little of either was left at the close of the feast. Speeches were made by Gen. Wright, Gen. Pacz, Mr. R. Pacz, Mr. Purroy, Major Hagadorn, and others. The company returned to this city in the evening, well pleased with the cordial reception given them.

FIRE -At 11 o'clock Sunday night, a fire broke out in the building No. 127 Anthony at. The upper part of the place was occupied as a dwelling; the lower part as a stable. The interior of the building was entirely destroyed. No insurance.

ARREST OF FOREIGN ROBBERS .- Officer Gilbert F. Hays of the Independent Police, succeeded Sun-day in arresting a hopeful party for whom he has been on the lookout for two weeks. Officer H. had the authority of the French Minister at Washington and the Consul here, and thus armed with the necessary documents, he went down to Staten the necessary documents, he went down to Staten Island to anticipate the arrival of the rogues. Here he made an arrangement that the keeper of the Telegraph station should signalize the arrival of the St. Nicholas, the ship bringing the robbers, by running his coat partly up the flag rope of the telegraph pole. The signal was given on Sanday, and Hays got on board the ship before she came to anchor at the Quarantine. The names of the felons are: Nicholas Viermaitere, aged 35; Frederick Cols, alias Denman, aged 22; Françoise Bernard, aged 35. Their offense is the robbery, in the month Cols, alias Denman, aged 22; Françoise Bernard, aged 28. Their offense is the robbery, in the month of July last, of the Hotel of the Countess de Caramont, in Paris, of furniture, plate, &c. to the value of fity thousand francs. A large portion of the furniture was sold by them, but the plate and some of the furniture was shipped on board the St. Nicholas; eight cares of furniture, clocks, candelabras, &c. and one box of jewelry were found on Sunday. Cols, alias Denman, is an Englishman; Viernattre is a Frenchman, and the woman, Bernard, is V's mistress. On boarding the ship, officer Havs at is a Frenchman, and the woman, Berrard, is V's mistress On boarding the ship, officer Hays at once charged Denman with the crime, and he confessed with very little hesitation. The two others (through Dr. Doane, Health Officer, who acted as interpreter, denied at first; the woman was then taken into a state room and questioned; she still denied, but, on learning that the Englishman had owned up to the accusation, she rejuctantly confessed. The prisoners were then taken to the Tombs, where Justice Osborne committed them until they may be taken back to France. until they may be taken back to France.

ROBBERY AND DEATH -During the storm about a week since, the schr. Burmah, belonging to Almon Bacon and others, and piloted by a man named John D. Ingraham, was capsized in the Sound, near Saybrook, Connecticut, but her masts and rigging, yet remained above the surface of the water. On Baturday one of the owners came to the city, and complained before Justice Mountfort, that the wreck had been pillaged, by some individuals who were expected to come down the East River in the course of the day. He was immediately sent to the Cupola, over the Essex Market Prison, and with the aid of a telescope discovered the suspected hoat, anchoring off the dock at the foot Avenue C. Two policemen were sent to the boat and arrested there a man named John Clark, with eight shrouds and the lanyards on the starboard side, together with a quantity of rigging, belonging to the wreck, valued at \$100, safely stowed away on board. The prisoner, on being taken into custody, voluntarily mon Bacon and others, and piloted by a man named valued at \$100, salely stowed away on boad. The prisoner, on being taken into custody, voluntarily stated that he took the property, but was hired to do so by a person named Gideon Gardner, who offered to pay him \$10 to bring it to this city. He did so, and on Sunday morning started to come to New York, when they were caught in a gale of wind, and while running for Huntington harbor, the beat upset, and Gardaer, in attempting to swim to shore, was drowned. The other fortunately escaped, and in a few days was able to resume his voyage, when he was arrested after anchoring off the do The prisoner was locked up for further

THE SUICIDE—The Coroner on Saturday held an inquest on the body of Dr. Julius Minding, whose suicide we noticed on Saturday morning. Three letters were produced, found on the desk, written by the deceased; two were written in English and the other in German. The one in English commenced by stating that he was tired of this earthly world, and that the fairest way was to put an end to his grie's and troubles and return into the great Lord's arms—he says, "I like to emigrate to suchter earthly world, never caring of emigrate to another earthly world, never caring o emigrate to another earthly worke, never caring of any laws except those of my own reason telling me that our gracious Lord will permit this kind of emigra. as well as any other." He concludes by saying: I am only following my design—it was to live for others, and to die for myself, returning to the gracious Lord, Clara and Alexander, the children who could not yet understand me. I want to sho could not vet understand me. I want to ren who could not yet understand me. I want to go to my Florentine to meet her again, and to look out for other accomplishments." Florentine is the name of his deceased wife, whom he loved and mourned for. For the last few nights he was heard to exclaim in his sleep, "Florentine! Florentine!" It was just two weeks since the deceased lost his wife, who excited suddenly by disease of the heart. The expired suddenly by disease of the heart decessed was 42 years of age, and a native eccessed was at years of age, and a native of Prussia. The jury returned a verdict of death by taking prussic acid, administered by his own hands. Another paper was left by deceased, leaving all his property to his friend, Mr. Vetter, who was his

ATTEMPTS AT SUICIDE -A than named Angus Oameron was brought to the station bouse at half-past 8 o'clock Saturday evening from Jones's drug-store, northwest corner of Macdougal and Houston sts. who had taken poison Dr. Gardner was sent

for, who immediately administered an antidote, which had the effect of giving relief to the unbappy man, who, it is boped, will recover.

A young girl of 17 years of age, by the name of Mary Bradley, was brought to the Tombs on Saturday, in an insensible state, having taken a large quantity of laudanum. She was placed under the charge of Dr. Coville, who applied the stomach-pump, and after much labor and perseverance, he out of danger, and restored to reason. She now out of danger, and restored to reason. She now says that she took the laudanum for a tooth ache. She is a native of Glasgow, and says she arrived in this City on Friday, from Charlestown, Mass. where she has resided for the last three years.— Mary was placed in charge of the Matron of the City Prison, for the present.

KILLED BY AN OMNIBUS .- The Coroner on Saturday, held an inquest at 125 Forsyth at on the bedy of a female child, aged five years and six months, by he name of Lavinia Rossile Guinaud, who came to her death by being run over on Thurs-day evening last by one of the Broad way stages. The decessed, itseems, on that evening descended from a stage in company with her elder sister, at the corner of Grand-st. and Broad way, when, be fore she could get to the sidewalk, the poor child was knocked down by another stage coming in the opposite direction, the wheel of which pressed on the abdomen of the deceased, causing a mortal is ternal injury. The child slied abortly after it was taken home. Verdict, accidental death.

Drap.—Patrick Laydore arrosted Bunday night at 104 o'clock, in the Sixth Ward, for assault and at-tempt to rescue a prisoner, was found dead in the cell, this morning.

THESDAY, August 51. UNITIES NEW YORK AND BROOKLYS .- A communication was received by Mayor Woodhull, from a Select Committee of the Board of Alderman of the City of Brooklyn, relative to the project of ef. fecting a union of the two Cities. This Committee state that they are appointed to consider the expepediency and propriety of the measure, and ask the Common Council of this City to appoint Committees from the two Boards with whom they may have an opportunity of conferring. The matter was last evening laid before the Board of Aldermon in a Message from His Ronor. The Committee of the Board appointed for Conference consists of AM Britton, Smith and Miller. Assurance, it is some crated, have been received that Williamsburgh will also perticipate in the consultation, by the appoint ment of a similar Committee.

FREE LECTURES ON BOCIALISM. - We are re. quested to announce that a course of free lectures on Socialism will be delivered every Sunday evening at 93 Hudson at by Mr. Vionis, a native of France but a citizen of the United States. The coincidence between the doctrines of Socialism and the essential principles of Christianity will be treated at length. All persons are invited to attend-

COMMON COUNCIL FOR SEPTEMBER - The September session of the Common Council commenced last evening, and bids fair to continue through the week. A fair amount of business was transacted.

THE HARLEM CITY TRACK -Petitions have been presented to the Common Council by sundry resi. dents of Broome and Center ats and the Butchers of Center Market, in relation to the City track of the Harlem Railroad, in which the petitioners pray for the abolition of the double track in Center and Broome sts. They recommend the adoption of the following plan : To take up the double track in Center and Broome, from Grand at through to the Bowery; aubstituting therefor a single track in the center of the street; extending the Railroad down the Bowery to Grand st. and thence through Grand to Center-st., so that the cars will go down one track and up the other. It is urged that the adoption of this plan will increase the business of the Market and improve the value of property on Broome st. The subject was referred to the Street Committee.

POLICE DEPARTMENT .- The following Message was transmitted by the Mayor to the Common Council last evening. It reviews the system of Police throughout the City, and contains a number

of valuable suggestions: of valuable suggestions:

Mayor's Office, September 2, 1856

To the Honerable the Common Council:
GENTLEMEN: In compliance with Sec. V. Art. III. of the
"Act for the establishment and regulation of the Police of
the City of New-York," passed May 7, 1844, I herewith
submit the following statements and suggestions reliative to
the condition and improvement of the Police Department:
From the resurrishment and by the Capitalis of Police for the
quarier ending the 30th of June, it appears that the total
humber of arrests made during this period was \$2.14 of
these, \$163 were for intoxication, 1,087 for disorderly conduct, 1,196 for assault and battery, and 185 for fighing in
the streets, offenses usually consequent on intoxication in

quarier ending the 30th of June, it appears that the total number of stress made during that period was \$214. Of these, \$153 were for intoxication, 1,037 for disorderly conduct, 1,966 for assault and battery, and 153 for fighting in the streets, offenses usually consequent on intoxication. The number of complaints made by the Police to the Gorporation Attorney during the same period was 634. The number of pinces at which zubrituous liquors are sold, as reported by the Captains of Police, on the 33th day of June, were \$1,927. Of the persons keeping there places, \$451 were reported as licensed, and 1541 as unilcensed. The whole number of persons now licensed to sell spirituous liquors in this city, is 4,174. During the above mentioned quarter there were lodged in the station-bouse 11-times persons, 1,574 four children restored; 151 sick and in Jured persons, 1,574 four children restored; 151 sick and in Jured persons, 1,574 four children restored; 151 sick and in Jured persons, 1,574 four children restored; 151 sick and in Jured persons, 1,574 four children restored; 191 sick and in Jured persons, 1,574 four children restored; 191 sick and in Jured persons, 1,574 four children restored; 191 sick and in Jured persons, 1,574 four children restored; 191 sick and in Jured persons, 1,574 four children restored; 191 sick and in Jured persons, 1,574 four children restored; 191 sick and in Jured persons, 1,574 four children restored; 191 sick and in Jured persons, 1,574 four children restored; 191 sick and in Jured persons, 1,574 four children restored; 191 sick and in Jured persons, 1,574 four children restored; 191 sick and in Jured persons, 1,574 four children restored; 191 sick and 1,574 four children restored; 191 sick a

undoubledly needs an admindar love, but would not be extent above Indicated will be for the Common Council to determine.

I would observe, that the above estimate in regard to the rapid growth of the Nimeleer th Wards equally applicable to the Sixteenth and Eighteenth Wards, which are now greatly in want of a much larger Police force. But no effective relief can be given to these Wards except by a relipportionment of the men. This relief as necessary to the protection of the lives and property of citizens, can, in my opinion, be effected by small drafts on some of the other wards without doing the least plustice to other portions of the City to afford adequate protection to the residents of the middle and upper as well to the lower portions of the hilder and upper as well to the lower portions of the close of the common interest of all, but would furnish a strong inducement to our own population to remain within the limits of the City, rather than seek a residence in some adjoining county, where they will have less assurances of such protection.

iteauh Ward. I believe the number of men will be sufficient for at least several years.

Though the Police force has not been increased in numbers, its real effectiveness has been constantly sugmenting field. Since I have had the honor of being at the head of this Department there has been an improvement in reference to the sick list, equivalent to an addition of searly fifty men. As above stated, at the time I entered on the duties of the office the average number absent from duty by reason of sickness or dismitting was sixty-two men per day.—This number has been duninisted until it is now accreely, if any, over fifteen men per day, of which number some have became permanently disabled by service in the Department.

If any, over fifteen men per day, of which number some bave became permanently disabled by service in the Department.

This improvement is to be attributed chiffy to a regulation instituted by me, requiring strict proof of sickness or disability to entitle policemen to their pay during the time of such alleged sickness or disability. I discovered this is the service of allow the pay of policemen, while absent from duty, without stifficient legality as to the causes of such absence. I have felt it my duty to allow pay only where the sickness or disability has been contracted in the public service, as only in such classes does the law authorize the pay to be allowed.

I would here the occasion to call the attention of the Aldermen and Assistants to the great importance of nominating or ly able-bodied, at two temperate mon as Policemen. Experience has aluminately shown that persons who are in the frequent habit of using intoxicating drinks even though not manally accounted historication. Experience, and about not be appointed. I would also respectfully suggest that strict care should be taken not to hominate persons of advanced age, or in feeble health, for it would be far better for the Department and the public that the places, about do to the important day, which they are physically unable to discharge. You have it my our power to contribute partially to the improvement of the folice; and I am happy to bear my testimany to the fact that great improvement of the folice; and is made much more efficiency, and that a much more efficiency and appears in the Department, that a persevence while my define from the violence of improvement constraint or any other country.

As a means of increasing the effectiveness of the Police on the provider of the proof of the country.

vaird position as Policamen, univaled for respectability or efficiency, according to their numbers, in this or any other country.

As a means of increasing the effectiveness of the Police Force, I would suggest the propriety of some other provision for the appointment of best lingers. They are now detailed from the Police, whereas, their duties are more nearly silled to those of fremen that Policemen, and could, therefore, more properly be scienced from the Fire Department. The number of men now on tuty at the various best lowers is 15, who, in the avect of the adoption of the measure above suggested, would be added to the effective force of the Police and thus easible the deficient force in the appropriate process of the fire the super wards to be more effectivally strengtheeed.

The designous practice of driving cattle through the crowded thour oughlares of the city, has become an arrive to which I feel board to direct your astention and which think demands most increatively the adopt on of some preventive reasons for its absences. Accidents from this cause are of frequent occurrence, and save into plann subject of complaint. This practice should be discontinuous or so regulared by reastening it to certain hours of the day, and confining it to some of the less crowded parts of the city with such guests by reastening it to certain bours of the day, and confining the some of the less crowded parts of the city with such guests and save into a fine and intended that the lives of our chitaria shall not be thereby endangered. I am satisfied that the parties concerned would very reality or aftern to any such regulation.

TEN THOUSAND

CURES, AND NOT A SINGLE FAILURE!

DR. HANNING'S COMPOUND SYRUP OF NAPTHA.
CELEBRATED throughout both continents for its wonderfai cures of consumption, asthma, decline, spitting of
blood, night sweats, difficult breathing, coughs, colds, and
all diseases of the chest and large.

It effect upon the system is mild and soothing, at the same
of med first application, and by repeating it a few times, a
permanent cure is effected.
The proprietor, therefore, not only recommends his Naptha Syup, but warrants it to cure. He wurrants it to act
upon the chyle, and purify it; is warrants it to premove all
impediments which retard the free cir ulation of the blood;
he warrants it to open the internal and external pures of
the body, and eject all the obnoxious particles which have
accumulated in the system; he warrants it as a nover-falling
remedy in

CHRING DISEASED LUNGS.

remedy in CURING DISEASED LUNGS, for

remedy in CURING DISEASED LUNGS, herric fever, night awenis, dyspessia, liver complaints, pain in his chest and actime; and he warrants it to arrest the formation of tuberces in the integr and to heal those already formed, so that persons in cocamption may take it with the most positive confidence of a cure, for its great seat of action is the Lungs, which it penetrates in all directions, purifying them to everything obtestices in its progress, and which, if applied arconding to directions, cannot fail to leave in a perfect healthy condition.

Dr. Hastings' Compound Syrup of Naptha is highly recommended by the nuclear profession. That emment his stellan, Dr. Mott, of New York, says. "that as a pulmonic remesy it cannot be too highly prelated." Dr. Arnold, of the Martine Hospital, Savannah, Dr. Ware, of Liverpool, Eggiand, Dr. Boyd, of Lancaster, Dr. Hamilton, of Sath and thise eminent English publications, the Loadon Lancet the Medical Journal, and Bratination for the discountry it has been used with distinguished societs.
